Some stuff about me

- My research interests lie in **advancing methodologies in spatial causal inference** and **developing high-performance computational tools**, with a primary focus on *R packages*.
- Currently, my work centers on **Empirical Dynamic Modeling (EDM)** framework for modeling *dynamic system* and **Difference-in-Differences (DID)** methods for *event studies*. I am particularly interested in leveraging these approaches to address critical challenges in *urban sustainability*, *climate change mitigation*, and broader global issues.
- I specialize in *data analysis*, *statistical modeling*, and developing open-source analytical tools, including *R packages*, using **R**, **C++**, and **Python**, with a strong focus on *spatial analysis*. I actively contribute to the R geospatial community and am dedicated to advancing open-source geospatial software.

Education

2021.8-2025.6 **B.Sc. In Geographic Information Science**
Xi'an, Shaanxi

Shaanxi Normal University

Research Experience

2024.8-2025.12 **Visiting Student**
Guangzhou, Guangdong

HKUST(GZ)

2025.2-2025.8 **Research Assistant**
Shenzhen, Guangdong

Polyu

Publications

1. Lv, W., Lei, Y., Liu, F., Yan, J., Song, Y., & Zhao, W. (2025). gdverse: An R package for spatial stratified heterogeneity family. *Transactions in GIS*, 29(2), 29:e70032. <https://doi.org/10.1111/tgis.70032>

5. Song, Z., Liu, F., & Lv, W. (2023). *Spatiotemporal characteristics and optimization strategies of urban-rural development disparities in china's urban agglomerations(in chinese)* (pp. 1418-1429). People's Cities, Empowered by Planning - Proceedings of the 2023 China Urban Planning Annual Conference (14 Regional Planning; Urban Economy). <https://link.cnki.net/doi/10.26914/c.cnkihy.2023.061565>

Honor

2024.12 **Longi Non-Education Major Scholarship**

2024.11 **First Prize in the 13th National University Student GIS Application Skills Competition**

2024.06 **National University Student Innovation and Entrepreneurship Training Program Qualified Completion**

2023.12 **Grand Prize in the 12th National University Student GIS Application Skills Competition**

2023.11 **First Prize in the Second National University Student Ecological Environment Management Research Innovation Competition**

2023.12 **Second Prize of the 5th 'Guodi Cup' National College Student Natural Resource Science and Technology Competition, China Society of Natural Resources**

2021.10 **Outstanding Individual in Military Training Publicity for College Students, Shaanxi Normal University**

Unpublished

First Author	Measuring causal strengths by geographical cross mapping cardinality	Submitted to IJGIS, currently second-round revision
Third Author	Agricultural policies reshape cropland patterns with varying impacts - a case of soybeans from Heilongjiang Province	Submitted to Land Use Policy, currently under review
First Author	Causal discovery in urban data with temporal empirical dynamic modeling	In writing
First Author	Decomposing spatial causality through mutual information	Plan

Developed Spatial Analysis Toolkit

Package	Description	Source Code	Language
spEDM	Spatial Empirical Dynamic Modeling	https://github.com/stscl/spEDM	C++, R
tEDM	Temporal Empirical Dynamic Modeling	https://github.com/stscl/tEDM	C++, R
