Some stuff about me

- My research interests lie in **advancing methodologies in spatial causal inference** and **developing high-performance computational tools**, with a primary focus on *R packages*.
- Currently, my work centers on **Empirical Dynamic Modeling (EDM)** framework for modeling *dynamic system* and **Difference-in-Differences (DID)** methods for *event studies*. I am particularly interested in leveraging these approaches to address critical challenges in *urban sustainability*, *climate change mitigation*, and broader global issues.
- I specialize in *data analysis*, *statistical modeling*, and developing open-source analytical tools, including *R packages*, using **R**, **C++**, and **Python**, with a strong focus on *spatial analysis*. I actively contribute to the R geospatial community and am dedicated to advancing open-source geospatial software.

Education

2021.8-2025.6 **B.Sc. In Geographic Information Science** Shaanxi Normal University
Xi'an, Shaanxi

Research Experience

2025.9-2026.9 **Research Assistant** EITech
Ningbo, Zhejiang

2025.2-2025.8 **Research Assistant** PolyU-SZRI
Shenzhen, Guangdong

2024.8-2025.6 **Visiting Student** HKUST(GZ)
Guangzhou, Guangdong

Publications

1. Lv, W., Lei, Y., Liu, F., Yan, J., Song, Y., & Zhao, W. (2025). gdverse: An R package for spatial stratified heterogeneity family. *Transactions in GIS*, 29(2), 29:e70032. <https://doi.org/10.1111/tgis.70032>

Honor

2024.12 **Longi Non-Education Major Scholarship**

2024.11 **First Prize in the 13th National University Student GIS Application Skills Competition**

2024.06 **National University Student Innovation and Entrepreneurship Training Program Qualified Completion**

2023.12 **Grand Prize in the 12th National University Student GIS Application Skills Competition**

2023.11 **First Prize in the Second National University Student Ecological Environment Management Research Innovation Competition**
