Some stuff about me

- My research interests lie in **advancing methodologies in spatial causal inference** and **developing high-performance computational tools**, with a primary focus on *R packages*.
- I specialize in *data analysis*, *statistical modeling*, and developing open-source analytical tools, including *R packages*, using **R**, **C++**, and **Python**, with a strong focus on *spatial analysis*. I actively contribute to the R geospatial community and am dedicated to advancing open-source geospatial software.
- Currently, my work centers on **Empirical Dynamic Modeling (EDM)** framework for modeling *dynamic system*, **information theory** for quantifying *information flow* and *causal interdependence*, **ordinary differential equations (ODEs)** for characterizing *spatiotemporal processes* and *system evolution*, as well as **counterfactual** and **potential outcomes** framework for estimating *causal effects*. I am particularly interested in leveraging these approaches to address critical challenges in *urban sustainability*, *climate change mitigation*, and broader global issues.

Education

2021.8-2025.6 **B.Sc. In Geographic Information Science** Shaanxi Normal University
Xi'an, Shaanxi

Research Experience

2025.9-2026.2 **Research Assistant** Eastern Institute of Technology, Ningbo
Ningbo, Zhejiang

2024.8-2025.8 **Research Intern** The Hong Kong University of Science and Technology (Guangzhou)
Guangzhou, Guangdong

Publications

Honor

2024.12 **Longi Non-Education Major Scholarship**
2024.11 **First Prize in the 13th National University Student GIS Application Skills Competition**
2024.06 **National University Student Innovation and Entrepreneurship Training Program Qualified Completion**
2023.12 **Grand Prize in the 12th National University Student GIS Application Skills Competition**

| | |
|---------|---|
| 2023.11 | First Prize in the Second National University Student Ecological Environment Management Research Innovation Competition |
| 2023.12 | Second Prize of the 5th 'Guodi Cup' National College Student Natural Resource Science and Technology Competition, China Society of Natural Resources |
| 2021.10 | Outstanding Individual in Military Training Publicity for College Students, Shaanxi Normal University |

Unpublished

| | |
|--------------|--|
| First Author | Measuring causal strengths from spatial cross-sectional data with geographical cross mapping cardinality Submitted to IJGIS, currently in revision |
| First Author | Causal discovery in urban data with temporal empirical dynamic modeling: The R package tEDM Submitted to CEUS, currently in revision |
| First Author | Convergence-Diagnostic Geographical Pattern Causality for Robust Spatial Causal Discovery In writing |
| First Author | Quantifying Information Flows in Spatial Processes Plan |
| First Author | gobi: General ODE-Based Causal Inference in R Plan |

Developed Spatial Analysis Toolkit
